

SpotOn Restaurant Handheld POS

Save time, serve more guests, and accelerate revenue growth

Enhance the dining experience for both your customers and your staff by offering order-at-the-table and pay-at-the-table

Keep customers coming back. Empower your staff to focus on your customers' needs rather than wasting time running back-and-forth to your POS station

Reduce costly ordering mistakes and kitchen returns. Send orders directly to the kitchen with our full-featured handheld POS that has realtime access to your entire menu, modifiers, and pricing events

Improve throughput to grow revenue. Turn tables faster and serve more guests by taking orders and payment right there at the guest table

Provide Better Service to Your Clients Sleek and Restaurant-Ready

Thanks to our cutting-edge, cloud-based POS software, our specially configured handhelds are not only durable, but also sleek, fast, and easy to use.
